developed for an Australian and New Zealand audience. Management Accounting 9e explains the contemporary role of management accounting, taking a broad perspective in viewing management accounting as the efficient and effective use of resources, demonstrating how it creates and enhances value for customers and shareholders as well as the wider aspects of business. The text has been developed using cases based on real Australian and international businesses and includes numerous real-life illustrations of current management accounting practices. In keeping with the need to be industry focused, the new edition includes coverage of key contemporary topics including data analytics, big data, and business ethics. Highlights include coverage of contemporary topics including data analytics, big data, and business ethics, real-life cases that reflect the growing global nature of business, and Australia's role in our region. End-of-chapter exercises and problems, including algorithmic questions, and a comprehensive instructor resource manual.
